

Overview

Criminal Case Public Access displays information contained in PROMIS/Gavel (P/G). PROMIS/Gavel (PROMIS = PROsecutor Management Information System; Gavel = Superior Court Criminal Case Processing Information) is the computerized case management and information system for the Criminal Division of the Superior Court for New Jersey. PROMIS/Gavel captures information concerning defendants who have been charged with indictable offenses, and tracks the processing of those defendants from initial arrest through appellate review. The system is unique as it is the case management tool for both the 21 Superior Court Criminal Divisions and the 21 County Prosecutors Offices. This shared capability provides for timely entry of information and cost savings due to the elimination of duplicate data entry and storage.

Detailed defendant information is recorded including the defendant name, address, and aliases. P/G tracks case related information including charge/statute and degree of offense, arrests, bail, sentence, scheduled proceedings (motions, hearings, and trials), diversionary program status, and appeal status.

Administrative and management information required for case processing, including prosecutor name file, judge name file, attorney file, statute file, court name and corporate surety file is maintained.

PROMIS/Gavel provides a significant historical case/defendant database since its implementation into all 21 counties in the 1990's.

Implementation and Conversion

The PROMIS (Prosecutor) component has been serving various Prosecutors' Offices since approximately 1973. PROMIS was supported by INSLAW (Institute for Law and Social Research) and the Law Enforcement Assistance Administration (LEAA) within the US Justice Department. The court component, GAVEL, was released in 1979. In New Jersey, P/G was originally implemented in 18 counties (excluding Bergen, Ocean, and Salem) in the mid-1980's. It was implemented at the county level on IBM 8100 mini computers. A 'System Manager' was designated from each county who was responsible for the overall implementation and daily operations of the IBM 8100 system.

Starting in 1989, the migration of P/G from the decentralized county level IBM 8100 computers to the statewide Administrative Office of the Courts (AOC) Data Center Mainframe began. The application was rewritten by the AOC's Information Systems Division's Criminal Project Team and the Criminal Practice Division to facilitate statewide communication, standardization, and system development efficiencies. The IBM 8100 was proving to be insufficient for the Prosecutors' and Courts' needs. It was experiencing slow response time, limited storage capability, high maintenance and operation costs, limited growth potential and functionality, and lack of inter-county or statewide communication. The new mainframe-based P/G addressed all of these problem areas in addition to improved functionality.

The mainframe conversion schedule is listed below:

- Camden - January 1989
- Salem (not previously on P/G) - May 1989
- Burlington - July 1989
- Atlantic - September 1989
- Essex - January 1990
- Hudson - April 1990
- Middlesex - June 1990
- Monmouth - August 1990
- Ocean (not previously on P/G) - August 1990
- Passaic - October 1990
- Union - December 1990
- Cumberland - January 1991

- Morris - March 1991
- Mercer - April 1991
- Warren - June 1991
- Somerset - July 1991
- Hunterdon - August 1991
- Cape May - September 1991
- Sussex - November 1991
- Gloucester - February 1992
- Bergen -December 1994

Note: By 1995, 100% of the statewide indictable criminal caseload was being tracked by PROMIS/Gavel

Computerized Criminal History (CCH) Interface

The purpose of the Computerized Criminal History (CCH) system, which is maintained by NJ State Police, is to act as the current and historical repository for criminal records in the state. CCH is used by the State Bureau of Identification (SBI) to disseminate criminal history information to authorized agencies and/or individuals in the form of a 'rap sheet'. The SBI collects this data via electronic interfaces and manual reports from arresting agencies throughout New Jersey. Criminal records are ultimately linked to an accompanying fingerprint card also submitted by the arresting agencies. Once SBI personnel match the fingerprint card to the complaint/defendant they will directly access and update NJ Judiciary Criminal Systems including PROMIS/Gavel with the SBI number and set the SBI Indicator to 'Y'. From that point forward the information on PROMIS/Gavel is automatically sent to CCH when specific court events or statuses occur. The data transmitted includes arrest, convictions, sentencing, incarceration, and diversionary program information.

Search Menu

Search Menu is used to search for cases and defendants in Criminal Case Public Access (PROMIS/Gavel). There are 3 different search types Name, IND/ACC # and CDR #. Only one search type can be used for each search. If data is entered in more than one search type, the search type closest to the top of the page will be used and any below it will be disregarded.

Name

1. Enter part or all of the defendant's last name.
2. Enter part or all of the defendant's first name.
3. Enter the defendant's middle initial.
4. Select **Search** to display [Defendant Name List](#).

● The minimum requirement to conduct a search is the first character of the last name.

●The search is not case-sensitive.

●The list is sorted alphabetically by last name and then by first name. This causes names with suffixes, such as Jr. and hyphenated names, to be placed at the bottom of the list of a particular last name.

IND/ACC

1. Enter the indictment or accusation number, without dashes.
2. Select the county in which the indictment or accusation was issued.
3. Select [Search](#) to display [Indictment List](#).

Note: Each county may have an indictment or accusation with the same number, so the correct county must be selected for accurate search results.

○Indictment and accusation numbers are distributed in various formats. CRIMINAL CASE PUBLIC ACCESS requires them to be entered in the following format YYMMSSSSSX where,

- YY = 2-digit year
- MM = 2-digit month
- SSSSS = 5-digit sequence number
- X = 1-character charging document type, usually 'I' for indictment or 'A' for accusation

○Entry Examples:

- 04-01-00123-I should be entered as 040100123I
- 04-01-23-I should be entered as 040100023I
- A-04-01-62 should be entered as 040100062A

CDR

1. Enter the complaint type or select it from the drop-down list.
2. Enter the year.
3. Enter the sequence number.
4. Enter the court code.
5. Select [Search](#) to display [CDR Inquiry](#).

Why aren't there any schedules on the case?

How current is the information in CRIMINAL CASE PUBLIC ACCESS?

Why does CRIMINAL CASE PUBLIC ACCESS reset after a few minutes?

●CRIMINAL CASE PUBLIC ACCESS resets after seven (7) minutes of inactivity. When it resets, CRIMINAL CASE PUBLIC ACCESS returns to the Disclaimer Screen where user will have to enter a new set of characters in order to continue searching. Also, after eight (8) searches you will be returned to Disclaimer Screen to enter a new set of characters to continue searching..

I know someone was charged with a crime, why can't I find it?

- Unless the defendant was convicted and sentenced on an Indictable (Felony) Offense, defendant will not display for internet purposes.
- The charge may be a disorderly person offense tracked only in the municipal courts.
- The record may have been expunged.
- The charge may have occurred prior to the implementation of the system.
- The charge may be so recent as to not yet be on the system.

What will I find if a record has been expunged?

●Once a record is expunged, all of the information related to the defendant and case are removed from CRIMINAL CASE PUBLIC ACCESS.

How do I know if I have found the right defendant?

●Verification of a defendant's identity can be difficult. It is best to look at Defendant Description to verify the defendant's identity. Aliases are often used and it may prove difficult in verifying a defendant's true identity. The NJ State Police's State Bureau of Identification (SBI) is responsible for matching a fingerprint card taken at time of arrest with other fingerprints. The State Bureau of Identification number is a unique number for every person for which the SBI has a set of fingerprints. The SBI number is the only verified identifier in CRIMINAL CASE PUBLIC ACCESS. See the CCH section of PROMIS/Gavel Information for more information.

How do I find if there are codefendants on a case?

●For cases with an indictment, an indictment number search may display other defendants on the case.

How do I know I have found all of the cases for a defendant?

●For CRIMINAL CASE PUBLIC ACCESS, only those cases for a defendant in which he/she was convicted and sentenced will display. If defendant has a case of which he/she was not convicted and sentenced, that case will not display in a CRIMINAL CASE PUBLIC ACCESS internet search. When conducting an inquiry, it is recommended, if there are matches for a name in different counties, all counties which do not display the defendant's State Bureau of Identification number should be checked as well as the county(s) with the SBI #.

How do I find the charges against a defendant?

●From [Defendant Detail](#) select **Charges** to display the [Charges](#).

How do I find a defendant's sentence?

●From [Defendant Detail](#) select **Sentence** to display the [Sentence](#).

How do I find out more information about a case?

●CRIMINAL CASE PUBLIC ACCESS relies on the PROMIS/Gavel criminal case management system

for its data. If there are any questions regarding the status or processing of a case, contact the Criminal Records Room in the county in which the case is being processed.

Something on the case looks incorrect. Who do I contact to get it fixed?

- Please contact the [Criminal Records Room](#) in the county processing the case.

How far back does CRIMINAL CASE PUBLIC ACCESS track cases?

- Though the PROMIS/Gavel criminal case management system is a statewide system used in every NJ County, it was implemented county-by-county so the case history varies by county. Please refer to PROMIS/Gavel Information for more details.

Why aren't there any schedules on the case?

- Since CRIMINAL CASE PUBLIC ACCESS is displaying only convicted - sentenced defendants, most likely the case has been completed, therefore, there is no court appearance scheduled.

How current is the information in CRIMINAL CASE PUBLIC ACCESS?

- If the data was entered into the PROMIS/Gavel criminal case management system, then it will display in CRIMINAL CASE PUBLIC ACCESS. There is no delay in displaying the data. However, there sometimes may be delays in entering the data into PROMIS/Gavel in the counties for various reasons. Data entry delays vary by county. Some data is entered in the courtroom during the proceeding while other data entry may be delayed while paperwork is completed. For more information contact the Criminal Records Room in the county in which the case is being processed
